

Welding helmet MOST SPECTRA

Welding helmet MOST SPECTRA may be used to every type of welding. It offers a combination of the highest level of protection, comfort and very good technical parameters. A lightweight of the helmet and ergonomic, adjustable headgear provide the user with maximum comfort during a long time of use. Adding a large viewing area, the best optical classes and a full range of shade adjustments make it a welding helmet for professionals.

- large viewing area: 100 x 65 mm,
- full range of shade adjustment from 4 to 13 DIN,
- the highest optical classes: 1/1/1/1 wg EN 379,
- 2 years warranty.

Type	MOST SPECTRA
Optical classes EN379	1/1/1/1
Viewing area	100 x 65 mm
Number of arc sensors	4
Variable shade range	4-8 and 9-13
Variable Shade Control	Internal
Degree of protection against UV/IR	16 DIN
Delay Control	Yes / smooth
Adjustment Light Sensitivity Control	Yes / smooth
Adjustment „Grind” mode	Yes
Darkening reaction time	0,000033 s (0,033 ms)
Brightening reaction time	0,3 s – 0,9 s
Battery Type	Solar cells + Lithium battery CR2450 (replaceable)
Low battery indicator	Yes
Operating temperature	from -5°C to +55°C
Storage Temperature	from - 20°C to +70°C
Total Weight	490 g
Standards / Certificates	EN 379, EN 175
Warranty	2 years

ACCESSORIES AND REPLACEMENT PARTS	Catalogue no.
External protective lens 106 x 124 mm	72 00 982312
Internal protective lens 68 x 107 mm	72 00 982313
Head band	72 00 982310
Sweat band	72 00 982311
